

ROADMAP FOR REOPENING NASHVILLE

The City of Nashville has created the following plan to get the city back to work.

The hard truth is that our city will be living with COVID-19 until there is an effective vaccine for the virus.

Living with COVID-19 means returning to work with COVID-19.

We must proceed carefully to ensure we do not create a surge that will send us all back home.

Nashville’s economy will open in four phases. We will only move to the next phase if there is positive improvement/stability in the metrics for 14 days.

ROADMAP FOR REOPENING NASHVILLE

There is a probability that Nashville will experience continued outbreaks of COVID-19 that will force us to revert to earlier phases of the plan.

The more that Nashville residents and businesses follow each phase of the plan carefully, the more we will stay on track and the faster we will get back to business safely.
